Alexandre **Grellet**

PhD Student · Department of Economics, Sciences Po

28 rue des Saints-Pères, 75007 Paris, France

alexandre.grellet@sciencespo.fr | alexgrlt.github.io | alexandre-grellet

Research interests

Economics of education, policy evaluation (randomized and quasi-experimental designs), labor economics, development economics.

Education

Sciences Po — *Paris, France*

PhD in Economics (in preparation). Advisors: Clément de Chaisemartin, Carlo Barone — *2025 – 2028 (expected)*

- Policy evaluation and economics of education, with a focus on French education policies.

Sciences Po — *Paris, France*

Master's in Economics, cum laude — *2021 – 2023*

- Master's thesis: effects of boarding schools of excellence on student achievement (propensity score matching).

Université Paris 1 Panthéon-Sorbonne — *Paris, France*

BSc in Applied Mathematics and Computer Science (MIASHS), highest honours — *2018 – 2021*

- Dual degree with Sciences Po: real analysis, linear algebra, probability and statistics, programming (Python, SQL), algorithms.

Sciences Po — *Paris, France*

Bachelor in Economics and Societies — *2018 – 2021*

- Dual degree with Paris 1: microeconomics, sociology, political science, history.

Publications and policy reports

A one-hour delayed school start improves sleep, sleepiness and inhibitory control in early adolescents in a randomized controlled trial — *Scientific Reports*

with E. Reynaud, L. Malevergne, A. Pawlik, M. Gurgand, A. Rey, S. Mazza — *2026*

- Experiment delaying school start by one hour in French lower secondary schools; effects on adolescents' cognitive performance. DOI

Delaying the start of classes in lower secondary schools: a French experiment — *CSEN–IDEE policy note*

with E. Reynaud, L. Malevergne, A. Pawlik, M. Gurgand, A. Rey, S. Mazza — *2025*

- Policy note presenting the school-start experiment and its results to education stakeholders. PDF

Persistance des performances éducatives et simulation d'effets de long terme — *IDEE methodological note*

Sole author — *2025*

- Persistence of educational achievement and simulation of long-term effects from short-term outcomes (surrogates). PDF

Constitution d'un répertoire de coefficients de corrélation intra-grappe dans le domaine de l'éducation — *IDEE methodological note*

Sole author — *2025*

- Open repository of intra-cluster correlation coefficients for French education data, integrated into the IDEE power calculator. PDF

Calculateur de puissance statistique : note d'utilisation — *IDEE software documentation*

Writer and lead developer (published under the IDEE program name) — *2024*

- User guide and statistical documentation of the IDEE power calculator for randomized evaluations in education. PDF

Ongoing research

School evaluation, organisational change and student outcomes

Principal author

- Impact evaluation of the school evaluation system piloted by the *Conseil d'évaluation de l'École*.

Reading with AI: Can Technology Foster Reading Acquisition and Promote Educational Equity?

With C. Barone, M. Gurgand, E. Huillery, T. Villemonteix

- Randomized evaluation of an adaptive reading platform for first graders in 200+ schools; effects on reading skills and on achievement gaps.

Mobility within the French education system

With M. Gurgand

- Joint distribution of early and late achievement across primary and secondary levels: do low achievers stay low achievers, and at which levels does the school system do worse?

Professional experience

J-PAL Europe *Paris, France*

Research Associate, IDEE program *2023 – 2025*

- Supported researchers in RCT design, delivered methods trainings to researchers and civil servants, and led the release of the IDEE power calculator.

CREST *Palaiseau, France*

Research Assistant *2022 – 2023*

- Designed an RCT testing a gamified approach to jobseekers' self-efficacy, with France Travail.

Teaching

Sciences Po *Paris, France*

Lecturer, Mathematics for Economists (Master in Economics, first year) *2025 – present*

- Pre-sessional course (lectures and tutorials): multivariate calculus, linear algebra, integration, optimization.

ENS-PSL *Paris, France*

Lecturer, Causal Statistics for Treatment Models (undergraduate and graduate) *2024 – present*

- Potential outcomes, RCTs, IV, RDD, difference-in-differences, design- vs sampling-based uncertainty, causal forests.

Sciences Po *Paris, France*

Teaching Assistant, Policy Analysis and Policy Evaluation (Master of Public Affairs) *2024 – present*

- Regression, matching, RCTs, RDD, difference-in-differences, IV.

Sciences Po *Paris, France*

Lecturer, Introduction to Statistics (undergraduate) *2024 – 2025*

- Descriptive statistics, sampling, statistical tests, confidence intervals, linear regression, data visualization.

J-PAL Europe *Rabat, Morocco*

Teaching Assistant, Evaluating Social Programs (executive training) *2024*

- Week-long training on the design and implementation of randomized evaluations.

Université Paris 1 *Paris, France*

Teaching Assistant, Introduction to Digital Culture and Skills *2019 – 2022*

- Taught tutorials, designed and graded exams and homework.

Skills

Econometrics	Policy evaluation: RCT design and power, IV, RDD, difference-in-differences, machine learning for heterogeneous effects
Text as data	NLP pipelines (spaCy, docling), sentence embeddings, clustering (UMAP, HDBSCAN), local LLMs (Ollama)
Programming	R, Python, Quarto, LaTeX
Languages	French (fluent), English (professional proficiency), Spanish (beginner), Italian (beginner)
